We're Hiring! | ICT Engineer

- Plan, install, configure, and maintain ICT systems, including servers, network infrastructure.

- Monitor system performance and troubleshoot hardware/software/network issues.

- Ensure system and data security by applying best practices in cybersecurity, backups, and access control.

- Provide technical support to internal users across all departments, resolving issues in a timely manner.

- Manage ICT projects such as system upgrades, migrations, and deployments.

- Maintain documentation for systems configurations, procedures, and network diagrams.

- Collaborate with vendors and service providers to manage ICT purchases, licensing, and support contracts.

- Stay current with emerging technologies and recommend solutions for process and system improvements.

Qualifications:

- Bachelor's degree in Information Technology, Computer Science, or related field.

- 3+ years of experience in ICT engineering or systems/network administration.

- Strong knowledge of Windows/Linux servers, networking (LAN/WAN), firewalls, and VPNs.

- Experience with cloud platforms (e.g., Microsoft 365, Azure, AWS) is a plus.

- Familiarity with ITIL practices and service desk procedures.

- Strong problem-solving, analytical, and communication skills.
